Memo to: Bill Deminoff

From: George Drake *George*

Bill, I agree entirely with Jim Tederman. Todd Shepherd is trying to move gay students into a protected class and therefore eligible for affirmative action. In our negotiations with the gay students over the learning resource center, we steadfastly refused to concede that they in any way come under our affirmative action policy. Non-discrimination and affirmative action are quite different and we should not be maneuvered into including gays under the latter category.

I believe that you should respond to Todd that he does not have a legitimate complaint based on the premise that he has presented.
